

Clean-Up Campaign Opens To-morrow; Lasts for Six Days

First of Manhattan and
Brooklyn Sections To
Be Burnished Are Named
by Health Department

Scrubbing and refurbishing of New York City will begin to-morrow, the first of six clean-up days designated by the Department of Health. Every day between now and Saturday the residents of certain sections of the city will be called upon to clean up, under the direction of Health Department inspectors and with the cooperation of the Street Cleaning Department.

Health Commissioner Royal S. Copeland sent circulars yesterday to those sections designated for cleaning the first day. Various neighborhoods in Manhattan, Brooklyn and The Bronx have been selected. The instructions are to put out all refuse by 7 o'clock to-morrow morning, to tie up all waste paper and put all other household refuse into boxes and barrels. The street cleaning carts, however, will not remove trade waste, such as brick, lime and other building materials, from dwellings, and nothing but garbage will be moved from factories, lofts or hotels.

The sections to undergo the cleaning-up process first are:

Manhattan
Houston Street inclusive, North River to Lafayette Street; not inclusive, Houston Street to Canal Street; Canal Street, not inclusive, Lafayette Street to Pike Street; Pike Street, inclusive, Canal Street to East River; East River, Battery and North River.

State Tax Experts to Study Federal System

Controller Travis Will Take Assistants to Washington to Inspect Work There

State Controller Eugene M. Travis announced yesterday that he had organized a summer school for his staff to study the Federal income tax. "We are all going down to Washington week after next to study the Federal income tax," said the Controller. "In the organization of the state income tax bureau and the collection of \$400,000,000 next year we realize we have a hard task ahead. If it is possible to devise a better system of organizing our bureau, classifying the names and collecting the tax, then they have in Washington, we want to install it at Albany. Prospective income tax payers have and for more than 30,000 blanks, and within the last few days we have had more than 200 callers. From all over the state come inquiries with reference to the new law."

The Controller will have another conference during the next few days with the Governor, Senator Sage, chairman of the Finance Committee of the Senate, and Assemblyman H. Edmund Macleod, chairman of the Ways and Means Committee of the lower house, with reference to the organization of the staff of the new income tax bureau. The Legislature appropriated \$500,000 for the first year's work. About 300 employees will be needed by January 1 next.

Bird Replaces Alarm Clock;

Yes, It's a Winsted Story
Special Correspondence
WINSTED, Conn., June 14.—No alarm clock is needed mornings at Evergreen Cottage, Highland, owned and occupied by Lou Stone, because a whippoorwill has volunteered to do the work hitherto entrusted to mechanism. Attracted by morsels placed in a box outside for birds, the whippoorwill comes at daybreak, eats from the box and before departing pays for its food in song. Winding and setting an alarm clock at night is no longer a chore at this cottage.

John Daniel and Sons Broadway 8th and 9th Sts
